**Calorie Converter**

☐ Plate of Spaghetti

☐ Banana

☐ Pop Tart

☐ Big Mac

☐ Medium Fries

Quantity

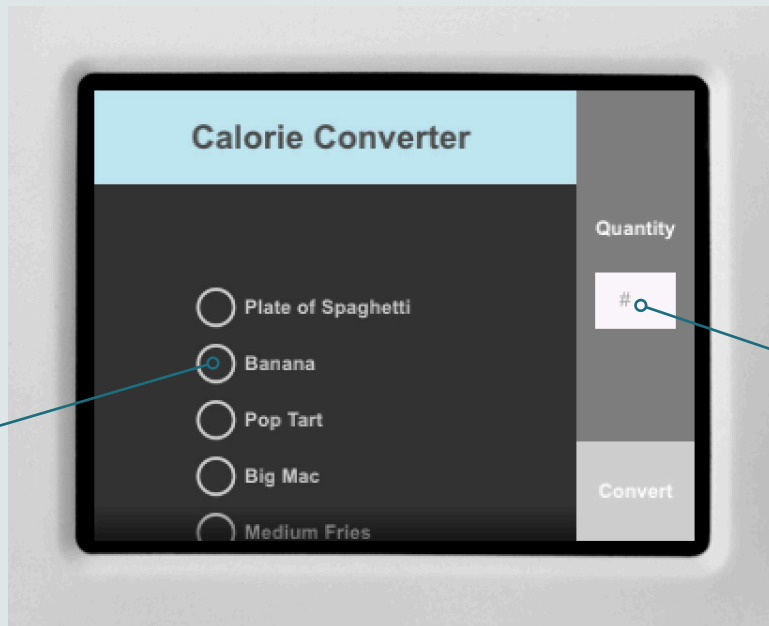

#

Convert

You can watch the video that shows how the Calorie Converter works here:

**<https://youtu.be/Qpsjql6iKFQ>**

# Home Screen

Here are some list of Foods you can choose to convert from.

Here we can input how much of the food item we ate.

We are able to scroll by clicking down with the mouse and dragging it down.

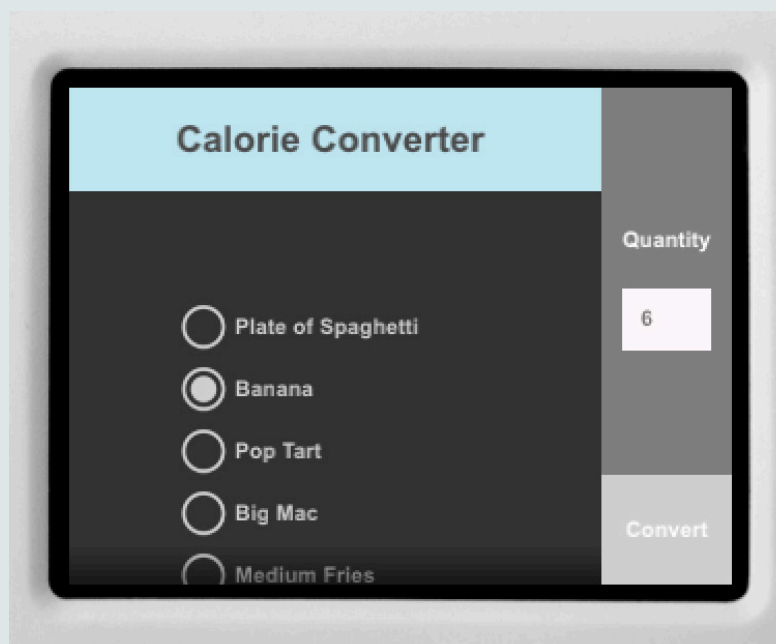

After inputting all the necessary inputs, we can click on the Convert Button to calculate how much of our food item we entered equals to other food items in the list.

# Home Screen Cont.

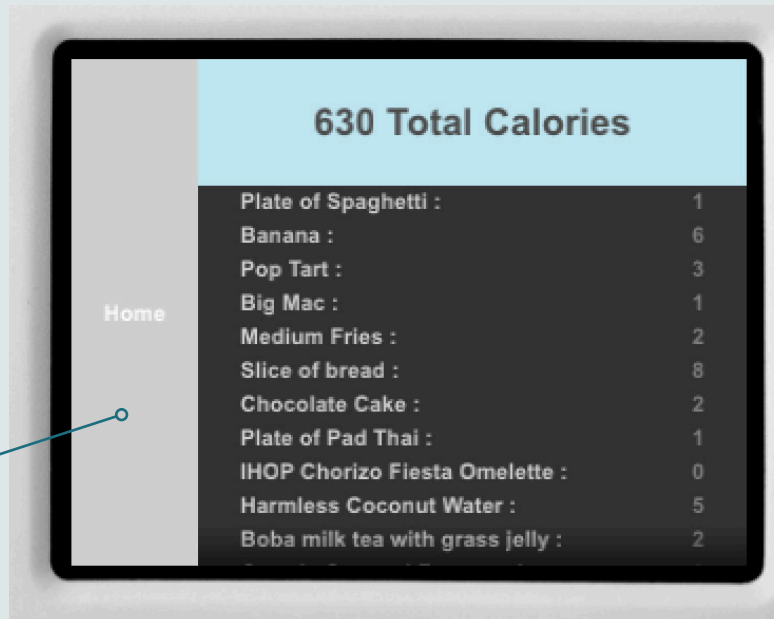

We can input how much of the item we ate in the Quantity box. To input the amount, just click on the text box and a keyboard appears so that you can type the number in.

Let's click on the Banana Radio Button and then type in a quantity of 6. Then to convert, we click the Convert Button.

# Results Page

630 Total Calories	
Plate of Spaghetti :	1
Banana :	6
Pop Tart :	3
Big Mac :	1
Medium Fries :	2
Slice of bread :	8
Chocolate Cake :	2
Plate of Pad Thai :	1
IHOP Chorizo Fiesta Omelette :	0
Harmless Coconut Water :	5
Boba milk tea with grass jelly :	2

To go back to the Home screen and re-enter inputs, we can click the big Home Button.

We are once again able to scroll down by clicking down with the mouse and dragging it down.

After we have clicked convert, we see the Result screen that shows us that 6 Bananas equals 1 Plate of Spaghetti and etc.
